

FRATELLI
SALVADORI

HISTORY MEANS QUALITY

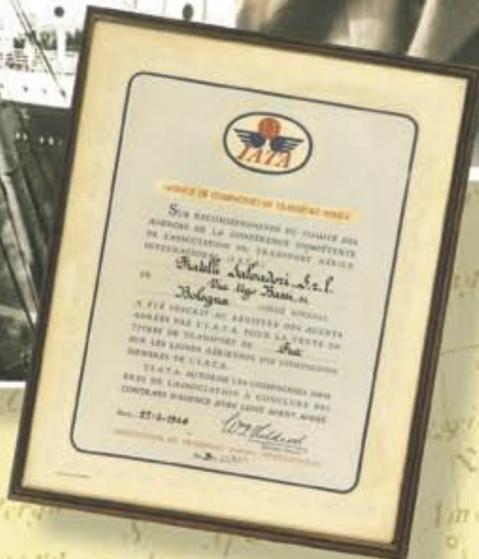

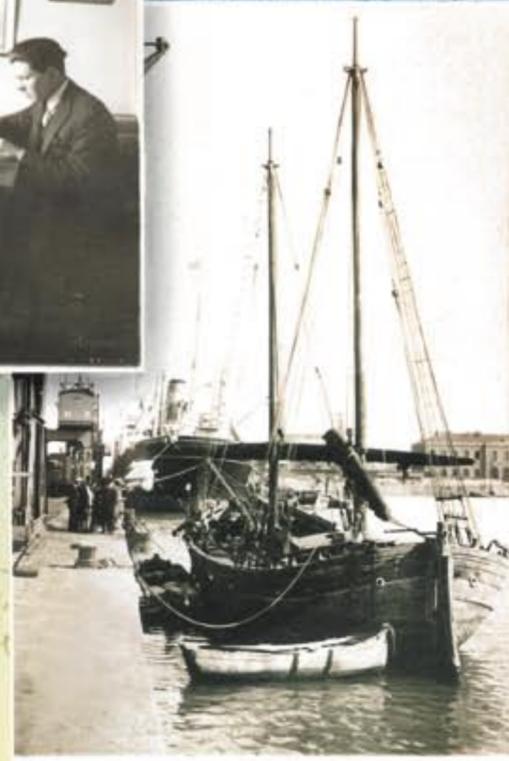

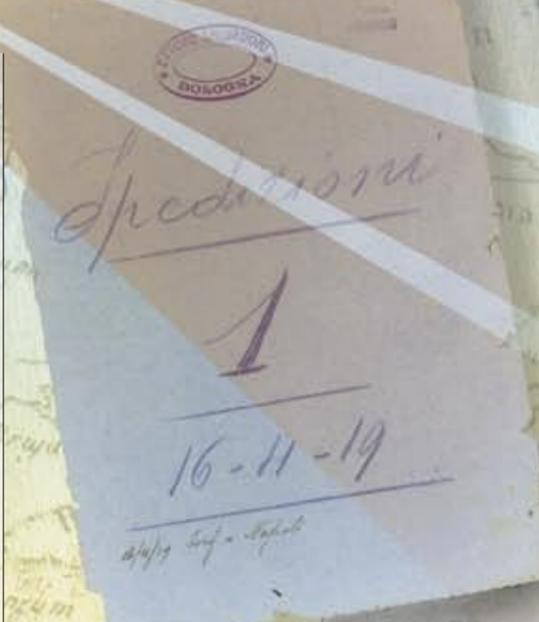

Grand varieties of goods travelling through Europe on river boats, trucks pulled by Norman horses, ramshackle ships cruising up and down the Mediterranean.

The dream of Fratelli Salvadori came true in 1919;

to put it mildly, it was a pioneering company of freight and forwarding that dared challenge the difficulties imposed by the post-war period, such as the streets destroyed by bombings by arranging the first transports of goods in civil aircrafts.

Inventiveness, foresight and awareness of the value of people and of goods lay at the basis of this deed.

These features have turned into **quality, know-how, communication, quickness and efficiency** which are the ingredients of the company's formula nowadays. Through generations, that ability of providing customers with services and facilities has made **this company, located in Bologna, the main reference for all those customers importing goods from abroad into Italy.**

A TRUSTWORTHY PARTNER FOR ITALIAN COMPANIES

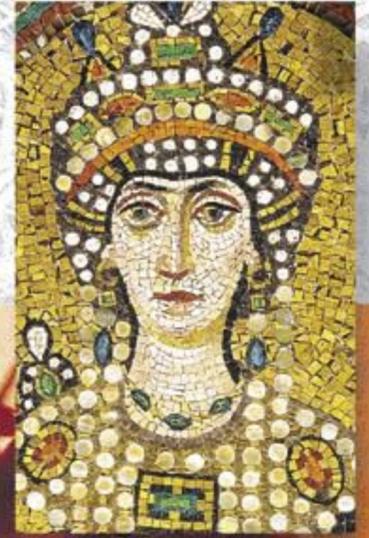

Today, in the new world scene, the procedures of transport of goods are necessarily becoming quicker and safer; therefore more than ever, **it is deeply felt the need of a trustworthy partner that guarantees such results.** Fratelli Salvadori are specialized in importing goods from China, India and the United States of America. The service that Fratelli Salvadori provide customers with starts with the preparation, the packing and the forwarding of the goods from shippers' warehouses, it goes on through the process of customs clearance once the cargos arrive in Italy by intervening, if necessary, in this delicate and bureaucratic phase and ends with **the delivery of the goods to their final destinations.** Total trustworthiness of Fratelli Salvadori is based on a unique method that puts together the **deep knowledge of the laws of logistics** with the **monitoring of the shipments step by step**, thanks to a wide web of agents located anywhere in the world who communicate constantly with each other.

ANYTHING BOUND TO ITALY

Having worked successfully in the transport field for almost one century, Fratelli Salvadori have achieved such a skill that they are able to foresee the evolution of markets and the requests of customers by using new technologies. For that same reason Fratelli Salvadori have to keep up with these new methods by developing even more specialized systems of shipping goods such live animals, works of art - paintings - fragile items and period cars. The medium size of the company, its deep knowledge of team working and its highly developed know-how of freight and forwarding procedures offer quality, punctuality and flexibility of service. The strength of Fratelli Salvadori lies in **moulding the logistics of transports to the specific demands of each customer**, away from the typical standardized procedures of huge freight forwarding companies.
